Sunset advisory commission JUN 23 2014

My son, Rick, is 39 and has lived at the Abilene State Support Living Center since 1995. Rick has C.P. and he is very social. Rick and I visited communities homes and Ab.S.S.L.C. before we made a final decision for his future living situation (his home). Rick loves his homes, his friends, his 2 jobs, his activities, and he feels safe and secure. As his mother and guardian I am 100% happy with Ab.S.S.L.C. It is a very good home with wonderful staff. I do believe that some people benefit

(over)

from a community home and many need and benefit from living at a State Supported Living Center.

Ab.S.S.L.C. is the best and they are so dedicated to the residents and their families. Please, do not close our loved ones home. It would be so devasting to them and their families.

Thank you,

Paula Shahan
