

Self-Evaluation Report Instructions

***Sunset Advisory Commission
June 2021***

INSTRUCTIONS

Each agency under Sunset review is required by Texas Government Code, Section 325.007 to complete a Self-Evaluation Report (SER) on its operations. The SER is designed to provide the Sunset Commission members and staff with a general background description of each agency being reviewed. The SER also gives each agency an opportunity to provide the commission with a preview of issues and suggested improvements regarding the agency and its functions.

The SER contains 12 sections. Agencies should record their responses to each question directly on this electronic document before submitting it as an accessible pdf file, as discussed below. Answers should be typed in the white space beneath each question. Use as little or as much room as needed to answer each question. Since the SER is intended to be a learning instrument, and you are the instructor, Sunset is quite flexible in how various charts and sections apply to your operations. If the information requested does not apply to your agency, either provide similar information to reflect actual agency practices or enter "N/A" in the space provided. In charts, add or delete rows, change column widths, and renumber exhibits as necessary, or rename chart headings to better reflect agency practices. If a chart is not applicable, indicate so and delete the blank chart.

If your agency already produces information requested in the SER in a different document, you may attach that document instead, but please note this and provide a summary of the document in the SER.

When your agency provides statistics, performance measures, or other data to answer the SER questions, please also provide basic information regarding the methodology used to collect and report that data.

This document also contains examples for certain sections of the SER. Please note, some examples from prior SERs may not reflect changes made in the current instructions. Links are provided to jump directly from one part of the document to another, and can be accessed by clicking on the text indicating an example. Reviewing the background and issues sections of recent Sunset staff reports will also be helpful in preparing certain sections of the SER. Recent Sunset staff reports are available on the Sunset website at www.sunset.texas.gov.

Once your SER is complete, update the appropriate page numbers on the table of contents and delete the text regarding Instructions, Attachments, and Examples before submitting it to the Sunset Commission.

By September 1, 2021, please submit an [accessible](#) pdf file of the SER and attachments to Trisha Linebarger at trisha.linebarger@sunset.texas.gov. Please redact any personally identifiable information, such as social security numbers or medical information, from any documents you provide to Sunset. If available, please provide the Sunset Commission with one hard copy of the SER to verify the pdf. To the extent feasible, please provide attachments only in electronic form.

As of 2013, it is the responsibility of the agency under Sunset review, not the Sunset Commission, to submit copies of the agency's SER directly to the Texas State Library and Archives Commission. Sunset no longer maintains the SER as part of its retention schedule and will not keep copies of these reports after the review is complete. Agencies should submit copies of their SERs to the Publications Depository Program to fulfill the archival requirement. If you have any questions, please contact your agency's assigned Government Information Analyst at the Texas State Library and Archives Commission.

We encourage you to contact Darren McDivitt at darren.mcdivitt@sunset.texas.gov of the Sunset staff at (512) 463-1992 with any questions, or email them to the Sunset Commission at sunset@sunset.texas.gov. We will make every effort to minimize the additional workload this report places on your agency.

II. Key Functions and Performance

Provide the following information about the overall operations of your agency. More detailed information about individual programs will be requested in Section VII.

A. Provide an overview of your agency's mission, objectives, and key functions.

The Office of Independent Ombudsman (OIO) was established for the purpose of investigating, evaluating, and securing the rights of children committed to the Juvenile Justice Department, including a child released under supervision before final discharge. Legislation enacted during the 84th Legislative Session (Senate Bill 1630), expanded those duties to include county post-adjudication facilities and contract facilities where county post-adjudicated youth are placed.

B. Do your key functions continue to serve a clear and ongoing objective? Explain why each of these functions is still needed?

The key function of securing the rights of youth committed to the Juvenile Justice Department remains to be a top priority as the Juvenile Justice Department continues to be embroiled in high staff turnover rates, staff shortages, high incidence of youth self-harming, high incidence of sexual misconduct by staff members, and high juvenile recidivism rates. These are the very reasons this agency was created by Legislative action in 2007.

C. What, if any, functions does your agency perform that are no longer serving a clear and ongoing purpose? Which agency functions could be eliminated?

There are no agency functions that should be eliminated.

D. Does your agency's enabling law continue to correctly reflect your mission, objectives, and approach to performing your functions?

The Human Resources Code, Section 261 continues to provide sufficient guidance to properly reflect the agency mission, objectives and functions.

E. Have you previously recommended changes to the Legislature to improve your agency's operations? If so, briefly explain the recommended changes, whether or not they were adopted, and if adopted, when.

Not Applicable

F. Do any of your agency's functions overlap or duplicate those of another local, state, or federal agency? Explain if, and why, each of your key functions is most appropriately placed within your agency. How do you ensure against duplication with other related agencies?

It is important to note, the Office of Independent Ombudsman is outside the Executive Leadership of the Juvenile Justice Department. This places the agency in a unique position to objectively identify and report issues within the Juvenile Justice Department. The Juvenile Justice Department has two agencies that have some overlapping duties. TJJD Monitoring and Inspections, who looks at Juvenile facilities and inspects the effectiveness of the facility services. In addition, TJJD Internal Audit also looks at some ancillary areas that the Ombudsman reviews. Duplication of efforts is not an issue as often times these two TJJD internal agencies use issues identified by the Ombudsman as a focus of their efforts. Inter-agency communication between all involved enhances reporting and minimizes duplication.

G. In general, how do other states carry out similar functions?

Many states have an office similar to the Independent Ombudsman for Juvenile offenders. In some states, child protective services fills the role. The intent is to have an unbiased advocate to ensure the rights of juvenile offenders are protected. The structure and chain of command remains the key element. In most cases, other states Ombudsman office is an internal agency to the Juvenile Justice Department. The Texas model is truly independent. The OIO is outside the chain of command of the executive Director and governing board of the Texas Juvenile Justice Department, which lends itself to greater objectivity and accuracy in reporting of internal issues affecting the rights of youth. Routinely, the OIO receives calls from other state Juvenile agencies seeking advice on developing a model that resembles the Texas OIO.

H. What key obstacles impair your agency's ability to achieve its objectives?

There are no identified obstacles to performing the agency key functions or objectives.

I. Discuss any changes that could impact your agency's key functions in the near future (e.g., changes in federal law or outstanding court cases).

There are currently no known changes that would impact the Independent Ombudsman.

J. Aside from additional staff or funding, what are your agency's biggest opportunities for improvement in the future? For example, are there other programs or duties the agency could take on to better carry out its mission?

The current reporting system is outdated and is no longer supported by existing software companies. The potential for loss of information or the entry of inaccurate information into existing databases was identified by the Chief Ombudsman in 2018. In August of 2019, the OIO entered into a joint cooperative with the TJJJ Office of Inspector General (OIG) to implement a consolidated reporting system to address the gaps in receiving and investigating complaints filed with the OIO. The new software and reporting database is currently in the development and implementation phase. Projected full implementation by October 2021. An audit conducted by the State Auditor's Office in September of 2020 also identified the same gaps in reporting, tracking and reconciling complaints. (September 2020, 21-001 Audit report on Complaint, Grievance and Allegation processing at the Juvenile Justice Department) The new database and reporting system should alleviate all concerns raised by the SAO. The multiple databases currently utilized should be consolidated under the new reporting software. Continuation of this software upgrade as well as Hardware infrastructure improvements were identified as a priority item in the agencies LAR. The agency budget does not contain line item funding for infrastructure improvement or upgrades. Funding for these type measure must allocated by the Legislature. Funding for this measure was listed as a priority in the LAR, which was not funded by the 87th Legislature.

K. Overall, how does the agency measure its effectiveness in carrying out its objectives?

The agency tracks the number of Juvenile offenders directly served during the fiscal year.

In the following chart, provide information regarding your agency's key performance measures, including outcome, input, efficiency, and explanatory measures. See Exhibit 2 Example. Please provide both key and non-key performance measures set by the Legislative Budget Board as well as any other performance measures or indicators tracked by the agency. Also, please provide information regarding the methodology used to collect and report the data.

Methodology: The number of juveniles directly served is the total number of juveniles interviewed by the OIO during the reporting period. This does not include orientation sessions and mailings to families that inform juveniles

and their families of the services offered by the OIO.

L. Please list all key datasets your agency maintains and briefly explain why the agency collects them and what the data is used for. Is the agency required by any other state or federal law to collect or maintain these datasets? Please note any “high-value data” the agency collects as defined by Texas Government Code, Section 2054.1265. In addition, please note whether your agency posts those high-value datasets on publically available websites as required by statute, and in what format.

III. History and Major Events

Provide a timeline of your agency's history and key events, including

- the date your agency was established;
- the original purpose and responsibilities of your agency; and
- major changes in responsibilities or statutory authority.

Also consider including the following information if beneficial to understanding your agency

- changes to your policymaking body's name or composition;
- significant changes in state/federal legislation, mandates, or funding;
- significant state/federal litigation that specifically affects your agency's operations; and
- key changes in your agency's organization (e.g., the major reorganization of the Health and Human Services Commission and the Department of State Health Services' divisions and program areas, or the Legislature moving the Prescription Monitoring Program from the Department of Public Safety to the Texas State Board of Pharmacy).

2007

S.B. 103, 80th (R) Legislature, which became effective immediately after passage in June 2007, added Chapter 64 to the Human Resources Code, establishing the Independent Ombudsman (IO) for the Texas Youth Commission. This Legislative action occurred following the investigation by the Texas Rangers of reported sexual abuse by Texas Youth Commission (TYC) staff at several Youth facilities. The IO was established for the purpose of investigating, evaluating, and securing the rights of the children committed to TYC, including a child released under supervision before final discharge. According to S.B. 103, the Independent Ombudsman shall:

- Review the procedures established by the commission and evaluate the delivery of services to children to ensure the rights of children are fully observed,
- Review complaints filed with the Independent Ombudsman concerning the actions of the commission and investigate each complaint in which it appears that a child may be in need of assistance.
- Conduct investigations of complaints, other than complaints alleging criminal behavior.
- Review and inspect periodically the facilities and procedures of any institution or residence in which a child has been placed by the commission to ensure the rights of children are fully observed.

- Provide assistance to a child or family who the Independent Ombudsman determines is in need of assistance, including advocating with an agency, provider or other person in the best interest of the child.
- Recommend changes in procedure relating to the treatment of children committed to the commission.

2011

S.B. 653, 82nd (R) Legislature, effective September 1, 2011, merged the Texas Youth Commission and the Texas Juvenile Probation Commission, creating a new agency, the Texas Juvenile Justice Department. S. B. 653 maintained the Independent Ombudsman to oversee the rights of youth committed to the Texas Juvenile Justice Department. This bill also transferred Human Resources Code, Chapter 64 to Human Resources Code, Chapter 261.

2015

S.B 1630, 84th (R) Legislature, effective September 1, 2015, amended Human Resources Code, Sections 261.101 (a) and (c) to expand the powers and duties of the Independent Ombudsman to include post-adjudication correctional facilities and any other residential facility in which a child adjudicated as having engaged in conduct indicating a need for supervision or delinquent conduct is placed under court order.

Not Applicable

F. Describe how your program or function is administered, including a description of the processes involved in the program or function. Include flowcharts, timelines, or other illustrations as necessary to describe agency policies and procedures. Indicate how field/regional services are used, if applicable.

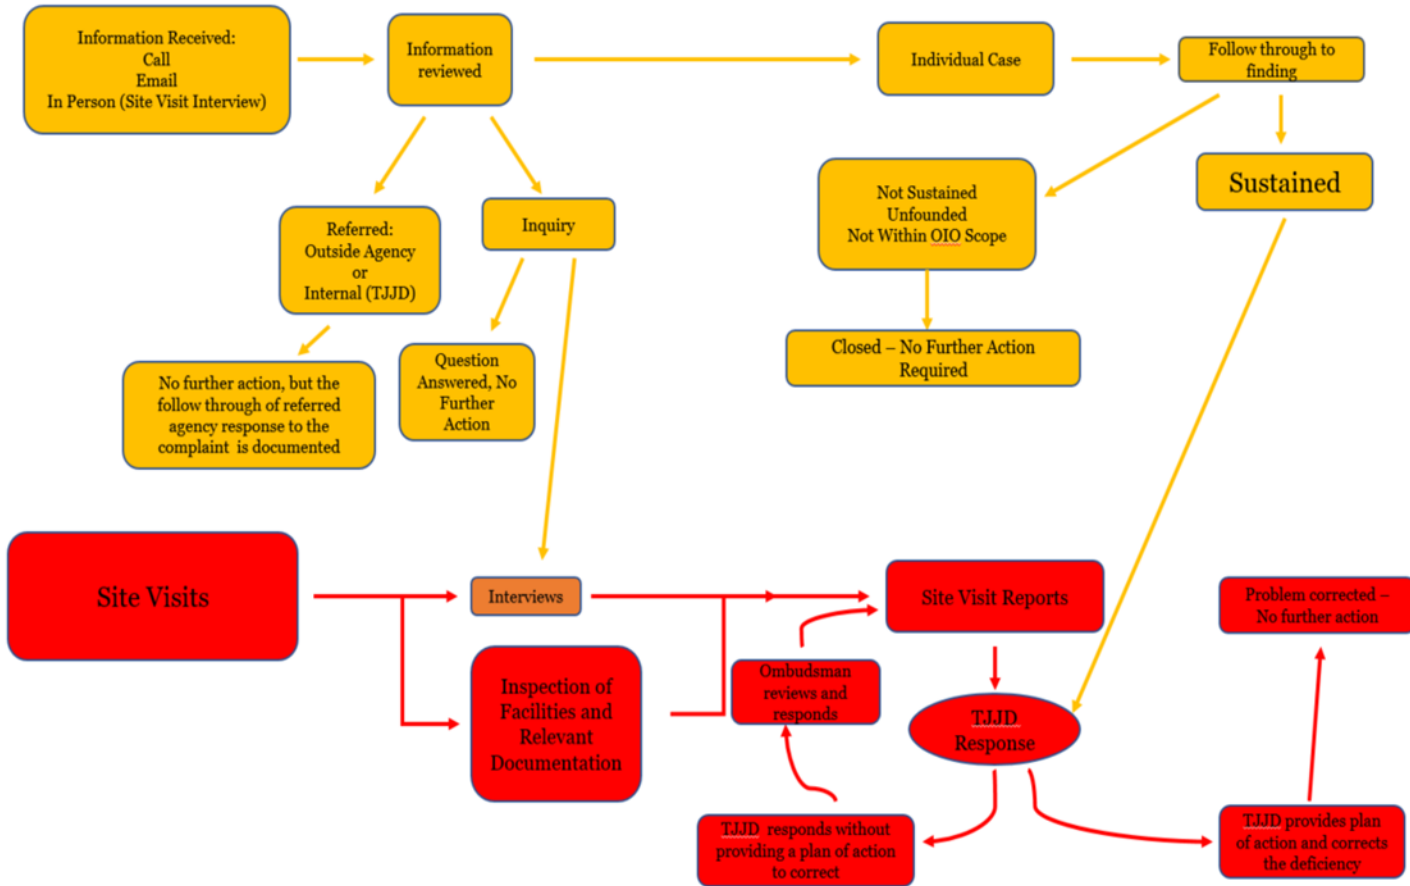

Ombudsmen are assigned a territory and conduct site visits of facilities according to a set schedule. Secure facilities operated by TJJJ and secure contract facilities are visited once a month. The remaining facilities, including TJJJ halfway houses, TJJJ parole offices/regions, and contract facilities are visited once a quarter, with the exception of out of state contract facilities, which are visited at least once a year. Each facility is evaluated to ensure the rights of youth are fully observed and every site visit includes a review of the educational services provided, the general treatment programs provided, and the facility security. During the site visit, when applicable, the ombudsmen observe educational classes, treatment groups, youth movement across the campus, and youth interactions with each other and staff, as well as review available documentation. Additionally, during each site visit, random interviews are conducted with a variety of youth and staff to learn of possible rights violations or safety concerns. Within 10 business days after returning to the office, the Ombudsman submits a site visit report draft to a supervisor(s) for review. Once all edits and corrections are made to the report, it is sent to TJJJ for comment. TJJJ has 30 days to provide a written response to the site visit. If TJJJ provides a response within 30 days, the final site visit report, including TJJJ's responses, is distributed to the Independent Ombudsman's (IO) stakeholders. If a response is not received from TJJJ within 30 days, the final report is distributed to the IO's stakeholders without TJJJ's response.

Complaints received by the IO are reviewed and processed by Ombudsmen as individual cases or may be addressed within a site visit. Individual cases may be received via telephone calls, emails, and interviews during facility site visits. The IO maintains a hotline, which is accessible through the youth telephones in all TJJJ facilities. The hotline number is posted in all facilities visited and during site visits, IO staff ensure youth have the ability to call the IO hotline to make a complaint. Individual cases are assigned to the ombudsman responsible for conducting site visits of the applicable facility. To achieve a complaint resolution, the ombudsman reviews all relevant documentation and interviews parties involved with the complaint. Individual cases are closed as sustained, unfounded, not sustained, or not within OIO scope. Upon the closure of an individual case, the complainant is notified either in person or in writing of the outcome of the case. After an individual case is closed, the ombudsman prepares an individual case report. This report includes a description of the case, the name of the complainant, a description of all documentation reviewed, a chronological list of all contacts made and a description of the contact, the outcome of the case, and a description of the notification provided to the complainant or a copy of the letter sent to the complainant. Individual cases reports are reviewed by a supervisor to ensure the case was resolved correctly.

Processes for receiving and investigating complaints (REACTIVE)

Processes for conducting and reporting activities discovered in site visits to secured facilities (PROACTIVE)

G. Identify all funding sources and amounts for the program or function, including federal grants and pass-through monies. Describe any funding formulas or funding conventions. For state funding sources, please specify (e.g., general revenue, appropriations rider, budget strategy, fees/dues).

All funding is derived through General Revenue based on baseline funding appropriated by the State Legislature. Article V, Goal D.1.1, and Rider 34

H. Identify any programs, internal or external to your agency, that provide identical or similar services or functions to the target population. Describe the similarities and differences.

There are no known internal or external agencies that provide identical functions.

I. Discuss how the program or function is coordinating its activities to avoid duplication or conflict with the other programs listed in Question H and with the agency’s customers. If applicable, briefly discuss any memorandums of understanding (MOUs), interagency agreements, or interagency contracts.

Interagency MOU with the TJJJ Office of Inspector General. Receiving, coordinating and investigating complaints initiated via hotline calls. The MOU governs how hotline calls for assistance are answered, prioritized and assigned based on the nature of the complaint.

J. If the program or function works with local, regional, or federal units of government, include a brief description of these entities and their relationship to the agency.

Prison Rape Elimination Act (PREA). This is a Federal statute which prescribes guidelines for correctional facilities to reduce and eliminate sexual violence within correctional settings. The Independent Ombudsman uses these guidelines to determine compliance of juvenile correctional facilities. Compliance with the standards established by this guideline are an indication of the overall health of a facility.

K. If contracted expenditures are made through this program please provide

- a short summary of the general purpose of those contracts overall;
- the amount of those expenditures in fiscal year 2020;
- the number of contracts accounting for those expenditures;
- the method used to procure contracts;

O. Regulatory programs relate to the licensing, registration, certification, or permitting of a person, business, or other entity. For each regulatory program, if applicable, describe

- why the regulation is needed;
- the scope of, and procedures for, inspections or audits of regulated entities;

- **follow-up activities conducted when non-compliance is identified;**
- **sanctions available to the agency to ensure compliance; and**
- **procedures for handling consumer/public complaints against regulated entities.**

It is important to note, the Independent Ombudsman does not license, certify or permit any person, business or other entity. The agency does conduct inspections on licensed and certified juvenile correctional facilities with procedures for addressing issues or complaints against these regulated entities. Refer to Section VII., Item F for details on program administration. See also, Item P below.

P. For each regulatory program, if applicable, provide detailed information on complaint investigation and resolution. Please adjust the chart headings as needed to better reflect your agency's particular programs. Please briefly explain or define terms as used by your agency, such as complaint, grievance, investigation, enforcement action, jurisdictional, etc. If necessary to understand the data, please include a brief description of the methodology supporting each measure. See Exhibit 13 Example.

Complaints received by the IO are reviewed and processed by Ombudsmen as individual cases or may be addressed within a site visit. Individual cases may be received via telephone calls, emails, and interviews during facility site visits. The IO maintains a hotline, which is accessible through the youth telephones in all TJJJ facilities. The hotline number is posted in all facilities visited and during site visits, IO staff ensure youth have the ability to call the IO hotline to make a complaint. Individual cases are assigned to the ombudsman responsible for conducting site visits of the applicable facility. To achieve a complaint resolution, the ombudsman reviews all relevant documentation and interviews parties involved with the complaint. Individual cases are closed as sustained, unfounded, not sustained, or not within OIO scope. Upon the closure of an individual case, the complainant is notified either in person or in writing of the outcome of the case. After an individual case is closed, the ombudsman prepares an individual case report. This report includes a description of the case, the name of the complainant, a description of all documentation reviewed, a chronological list of all contacts made and a description of the contact, the outcome of the case, and a description of the notification provided to the complainant or a copy of the letter sent to the complainant. Individual cases reports are reviewed by a supervisor to ensure the case was resolved correctly.

VIII. Statutory Authority and Recent Legislation

A. Fill in the following charts, listing citations for all state and federal statutes that grant authority to or otherwise significantly impact your agency. Do not include general state statutes that apply to all agencies, such as the Public Information Act, the Open Meetings Act, or the Administrative Procedure Act. Provide information on Attorney General opinions from FY 2015–2020, or earlier significant Attorney General opinions, that affect your agency’s operations.

B. Provide a summary of significant legislation regarding your agency by filling in the charts below or attaching information already available in an agency-developed format. Briefly summarize the key provisions. For bills that did not pass but were significant, briefly explain the key provisions and issues that resulted in failure of the bill to pass (e.g., opposition to a new fee, or high cost of implementation). Place an asterisk next to bills that could have a major impact on the agency. See Exhibit 15 Example.

IX. Major Issues

The purpose of this section is to briefly describe any potential issues raised by your agency, the Legislature, or stakeholders that Sunset could help address through changes in statute to improve your agency's operations and service delivery. Inclusion of an issue does not indicate support, or opposition, for the issue by the agency's board or staff. Instead, this section is intended to give the Sunset Commission a basic understanding of the issues so staff can collect more information during our detailed research on your agency. Some questions to ask in preparing this section may include: (1) How can your agency do a better job in meeting the needs of customers or in achieving agency goals? (2) What barriers exist that limit your agency's ability to get the job done?

Emphasis should be given to issues appropriate for resolution through changes in state law. Issues related to funding or actions by other governmental entities (federal, local, quasi-governmental, etc.) may be included, but the Sunset Commission has no authority in the appropriations process or with other units of government. If these types of issues are included, the focus should be on solutions that can be enacted in state law.

For river authorities, Texas Government Code, Section 325.025 limits the scope of Sunset reviews to each authority's governance, management, operating structure, and compliance with legislative requirements. However, river authorities may provide information about major issues facing the authority even if they are outside this limited scope. Previously, this type of information has provided valuable context for understanding the authority's current situation and operations.

This section contains the following three components.

A. Brief Description of Issue

B. Discussion

Background. Include enough information to give context for the issue. Information helpful in building context includes:

- What specific problems or concerns are involved in this issue?
- Who does this issue affect?
- What is the agency's role related to the issue?
- Any previous legislative action related to the issue?

C. Possible Solutions and Impact

Provide potential recommendations to solve the problem. Feel free to add a more detailed discussion of each proposed solution, including:

- How will the proposed solution fix the problem or issue?
- How will the proposed change impact any entities or interest groups?

- How will your agency's performance be impacted by the proposed change?
- What are the benefits of the recommended change?
- What are the possible drawbacks of the recommended change?
- What is the fiscal impact of the proposed change?

Complete this section for **each** issue. Copy and paste components A through C as many times as needed to discuss each issue. ***See Major Issue Example.***

X. Other Contacts

A. Fill in the following charts with updated information on people with an interest in your agency, and be sure to include the most recent email address.

XI. Additional Information

A. Texas Government Code, Section 325.0075 requires agencies under review to submit a report about their reporting requirements to Sunset with the same due date as the SER. Include a list of each agency-specific report that the agency is required by statute to prepare and an evaluation of the need for each report based on whether factors or conditions have changed since the statutory requirement was put in place. Please do not include general reporting requirements applicable to all agencies, reports that have an expiration date, routine notifications or notices, posting requirements, federally mandated reports, or reports required by G.A.A. rider. If the list is longer than one page, please include it as an attachment. See Exhibit 17 Example.

B. Does the agency's statute use "person-first respectful language" as required by Texas Government Code, Section 325.0123? Please explain and include any statutory provisions that prohibit these changes.

Yes, there are no statutory provisions which prohibit or conflict with "first person" use.

C. Please describe how your agency receives and investigates complaints about the agency and its operations.

Complaints against the agency operations may be received by phone, mail, electronic mail or in person. All complaints against agency operations are investigated and documented by the Chief Ombudsman.

Fill in the following chart detailing information on complaints received about your agency and its operations. Do not include complaints received about people or entities you regulate.
