Texas

#### **Your Comments or Concerns**

Climate change is a real concern and will impact Texas greatly. Texas needs to be taking more action for environmental causes and leading the County regarding sustainable solutions.

#### **Your Proposed Solution**

More funding for solar programs, recycling programs, and conservation. If business do not recycle, assess fines. It should be a requirement in the State of Texas to recycle similar to the 'Don't Mess with Texas' campaign against littering. The same program can be used to create more environmental friendly programs and by fining those that do not participate. This will also create revenue for the

state. If you choose (business or individual) to pollute our state and continue to fill our landfills then you should be assessed a civil fine for the damage you are causing.

**My Comments Will Be Made Public**

Yes
