#### **Your Comments or Concerns**

We have had ongoing problems with San Joe utilities a small water company in Willis . Tceq has been out numerous times and cited them for many violations. The problem still keep happening lead in the water things like that no notice to customers tceq is doing all they can with the staff they have to monitor these situations but I do feel that more staff is needed. I do not feel safe drinking the water that comes out of my pipe and I myself have complained to TCEQ and they have come out and check the water in 2021. I also do have photos of what the water looked like after a recent station pump

failure . I also can provide the quality confidence reports for 2019 through current year if needed.

**Your Proposed Solution**

Increased staffing and monitoring within the Montgomery county district and higher fine for non-compliance.

**My Comments Will Be Made Public**

Yes
