#### **Your Comments or Concerns**

it's an epidemic. agency after agency not doing the job they were hired to do. the environment and human and non-human lives experiencing significant hardship because of incompetence?, apathy?, self-interest? politics? you tell me. i have no specific input on tceq's performance, but i know human nature and the trends in human behavior these days that are frustrating and frightening.

#### **Your Proposed Solution**

enlightened despotism. someone with good intent and power to make the right things happen. so-called democracy is getting us nowhere. strict oversight of agency to keep things on track might be

useful.
