Your Comments or Concerns

My name is Victoria Garcia. I am 12 years old. I am part of a family of 5 and I go to school. I love spending time with my family. I am a resident of Allen Field, East Aldine in Houston, TX.

I ask the Texas Commission on Environmental Quality to have the power to limit the number of refineries, factories or buildings that conduct pollution around our city, Houston.

The lack of those responsibilities has allowed an unhealthy environment in Houston and lots smog. Our water, air and land are contaminated because there are many refineries. People we love are getting sick and have trouble breathing. There needs to be a limit to the number of permits TCEQ can approve in a city. You are responsible for economic development but it should not be at the cost

of the health of families like mine or my classmates.

Thank you.

Your Proposed Solution

There needs to be a limit to the number of permits TCEQ can approve in a city.
