**Your Comments or Concerns**

The Texas Commission on Environmental Quality has not been concerned with the Environment, or the Quality of it in decades. It is either inept or a corrupt institution which does nothing to polluters

of the great state of Texas, or taps them on the wrist, not EVEN a slap. The TCEQ needs to be overhauled and given over to people who actually CARE about Texas more than letting companies get away with murder, figuratively and eventually... literally.

**Your Proposed Solution**

Adhere to their Mission Statement: "The Texas Commission on Environmental Quality strives to protect our state's public health and natural resources consistent with sustainable economic development. Our goal is clean air, clean water, and the safe management of waste." or allow others to do so.
