Your Comments or Concerns

All across Texas, industrial facilities violate their Clean Air Act permits thousands of times every year, but TCEQ fines polluters only about 3% of the time. These measures are incredibly insufficient to the point of being hazardous. Our landfills are leaking into the water supply at an alarming rate. The city water source in many counties of Texas isn't drinkable, without additional filtration.

Your Proposed Solution

Monitor facilities more stringently, enforce stricter standards, and require they're taxed for the cost.
