Your Comments or Concerns

TCEQ has utterly failed to protect our communities from pollution and threatened the sustainability of our natural resources, specifically water. As the member of a family forced to sell our home and property after air and water pollution from the neighboring rock quarry made living in the home impossible, I know personally the consequences of the negligence and indifference of TCEQ.

Your Proposed Solution

Restructure TCEQ. Its job is to protect our environment, so staff TCEQ with environmentalists and give it the power to truly regulate industries whose operations (like rock quarries) impact the environment.

My Comments Will Be Made Public

Yes
