Your Comments or Concerns

CLWS tank of Rambling Drive was conveying "water" through a 5-6" hose across a yard at 500 Royal Oak Dr with the owner's permission. This covert flows down hill to Rebecca Creek and then the

Guadalupe River and then Canyon Lake--becomes part of the US Army Corp of Engineers. After months of this monthly water dumping, I called TCEQ and talked to Javi--he tried to belittle the consequences of this water dumping on land that CLWS does not provide water service. I told Javi that ignoring this dumping was inexcusable and I have not noticed the water being dumped again.

Your Proposed Solution

Advise residents about the consequences polluting drinking and recreation waters and how they can notify TCEQ
