Your Comments or Concerns

I came from Colorado and had over 1200 hours of training but they would not move over my training from Colorado and only gave me the time and training hours which puts me at a basic level and is very off putting considering I have a lot of experience! I have to pay to do classes over that I have already done several times over! They say it's because the training was from out of state. So does that mean that if I do a training out of state now they won't except it? It costs more money and time that I shouldn't have to redo!! I should already be at an advanced level!! Also when you call no one ever knows anything! They seem confused on certain criteria and all give different answers! Then every time you want to submit something you have to pay more money! Sending certs , training records, hour transfers are all separate 35 dollar checks which is outrageous

Your Proposed Solution

Allow officers out of state to move over with out all the processes money and time! We are all cops and all have the same training! If you can provide training records then you should get your time, hours, and training. Provide better training for employees and stop charging so much money to work with TCOLE.
