Your Comments or Concerns

Tuition rate collection

Your Proposed Solution

Instead of conducting phone calls, could this information be collected through a survey? All licensed homes and centers already have an email address on file with Child Care Regulation (CCR), which could make data collection more efficient.

Another option would be to add a tuition field to each program's information on the CCR website. Providers are already required to update certain information annually, such as the number of staff terminated during the year. Adding a field for current tuition rates during that same annual update does not seem overly burdensome and could provide a consistent, reliable way to collect this information statewide.
