Your Comments or Concerns

I have series concerns about the DVR and it's employees and their man lack of communication. I've been trying to work with the DVR on the ticket to work program for over 4 years now. The entire time I've had a very serious issue with the DVR and the VRC's I've had to deal with. When they do communicate, they tend to lie and/or manipulate the conversation. My VRC has failed to obtain my maintenance checks for my medical treatments. My VRC and his supervisor have completely ignored the fact I've requested necessary repairs for my vehicle which I require to transport myself to these multiple medical services demanded by my VRC and his supervisor. I'm being forced to overdraft my account to maintain the services. I've had to train my multiple VRC's and their supervisors at 3 Texas locations.

Your Proposed Solution

The DVR needs to seriously train their VRC's to understand that just because a person has physical disabilities, they can be much much smarter than the VRC's. They need to be told not to put flagging statements in the files of DVR service recipients, which they have done to me. I would like the opportunity to make these statements in a public forum so I know the public is aware of the multiple failures of the DVR. The public has the right to know that the DVR participates in discrimination and coercion.

My Comments Will Be Made Public
