Subject: Staff Report Feedback

Agency name: Environmental Quality, Texas Commission on

Response to staff report: I hope to see that the cap on daily fines is lifted -- it's currently too low. I don't see that in the report.
I also hope to see that TCEQ will take a more comprehensive approach in permitting. It should consider all permits holistically, instead of in a piecemeal fashion. Cumulative effects of a particular industry must be considered. Additionally, TCEQ should take a regional approach to issuing permits -- consider the cumulative effects of neighboring industry -- pollution does not respect county lines, nor state lines.
