Dear Dr. Day:

Through our mutual friend Jimmie Steidinger I learned that the Sunset Advisory Commission will be taking public comments on the Texas Medical Board in Austin. I am unable to attend in person the hearings to express my support of you, your professionalism, and your qualities as a doctor.

I was surprised when I learned of the travails you were going through as results of accusations and comments some patient had made. I said surprised, for my experiences while visiting your office for treatment were nothing less than complete satisfaction with the professional manner in which you always treated me, your demeanor while I was in your presence, and the effective and positive results I obtained following your recommendations and treatments.

I just wanted to express to you in writing my complete support of you as a doctor who, in my opinion is professionally very capable; is very totally devoted to the welfare of your patients; and whose treatments were effective in helping me with my ailing.

I surely hope that the Texas Medical Board will learn from testimony of your patients the negative effect that keeping you from practicing will have on their health.

Wishing you the best, I remain,

Sincerely yours,
