Subject: Staff Report Feedback

Agency name: Environmental Quality, Texas Commission on

Response to staff report: The Sunset Commission's comments, as outlined in Appendix D of their report on TCEQ, concerning the agency's management of the National Pollutant Discharge Elimination System Program, especially the dated (2007) commendations concerning the pretreatment program, may not be entirely consistent with the experiences of the regulated community (i.e. TPDES permit holders). Recommend the Sunset Advisory Commission reconsider these pretreatment comments after interviewing and obtaining feedback from TPDES permit holders which have active pretreatment programs.
