Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

Please do not allow abolishing the dyslexia licensing for the state.

Dyslexia therapists are needed in the field for the dyslexic student. It has taken so many years for us to help parents and teachers to know that dyslexia is not special education. Abolishing the law would be a tremendous setback.

At our school (a christian private academy) we are able to support the dyslexic student legally, because of the law.

This school is proactive in following ways to help their college bound students. Dyslexic students can make a difference, but just may need support on the way.

Please do not allow this bill to be implemented to abolish the dyslexia law.

Any Alternative or New Recommendations on This Agency: We need to maintain quality control on the teacher training programs being made available.
