Subject: Opposed - PT board combining with TDLR

Hello,

I am a constituent in Austin, TX and I am opposed to the proposal of combining the Physical Therapy board with the Texas Dept of Licensing & Regulation.

The PT board has demonstrated its success in managing the profession for several decades and holds the expertise in managing the field. Combining the PT board under the TDLR would separate the very organization that promotes the values, mission and vision of physical therapy in the state of Texas.

Please do not consider the TLDR combined health profession board. Thank you, Kristen
