Your Comments About the Staff Report, Including Recommendations Supported or
Opposed: Dissolving facility licenses

Any Alternative or New Recommendations on This Agency:

I think if a person/entity owns a facility and is unlicensed there should still be a facility license requirement.

Unlicensed facility owners do not have a full understanding of what is required by licensed providers with regard to compliance, rules, regulations, etc.

Or replicate the medical model: unlicensed person/entity can not own a facility. Therefore, doing away with all facility licenses all together.
