Your Comments About the Staff Report, Including Recommendations Supported or Opposed: My opinion is that the Texas Board of Professional Scientists (TBPG) is a unneeded burden on the Geological/Geophysical community in the State of Texas. The certification is rarely, if ever needed. The fees collected seem to go to support only the infrastructure made necessary by the TBPG itself. I opine that the money is therefore wasted and the TBPG serves no real public interest. The Board should be disbanded.

Any Alternative or New Recommendations on This Agency: None
