Your Comments About the Staff Report, Including Recommendations Supported or  
Opposed: Review LCRA response to flood damage and debris in the Lake LBJ river bottom.

Any Alternative or New Recommendations on This Agency:

LCRA needs to assist with debris removal in the river channel of Lake LBJ following the October floods. This lake can no longer be considered safe for recreational activity with debris removal.

Generating electricity at their plant produces income to them and their negligence in opening flood gates sooner caused massive, wide reaching damage . They need to repair and improve the lake.
