Your Comments About the Staff Report, Including Recommendations Supported or Opposed: Proposing to allow other non-related professionals to oversee and license our profession is as ludicrous as allowing us to oversee and license professional engineers who build bridges or other public projects. Beyond the obvious, I propose that like minded professionals oversee one another for the good of the public service and safety.

Any Alternative or New Recommendations on This Agency: Propose that like minded professionals oversee one another for continued safety as well as improvement. Steel sharpens steel. Try sharpening steel with aluminum or gold.

My Comment Will Be Made Public: I agree
