Your Comments About the Staff Report, Including Recommendations Supported or Opposed: Cosmetologists need more training - not less. We need more hours of education. We need new courses added that include more information about sanitation, disinfection, protecting ourselves and our clients from community spread diseases and viruses. Also new courses added to teach the new trends of ever changing hair color application techniques and more in depth teaching of the color wheel. Do not slowly deregulate us. We need all of our current rules, guidelines, recommendations and training. Plus we need more education added to address the critical environmental and contagion issues currently at hand. We need stricter rules, not less of them.

Any Alternative or New Recommendations on This Agency: We need more frequent and more thorough inspections, such as twice a year per salon. Not once every two years. We need cosmetologists and barbers themselves tested every year for diseases that we could pass onto our clients. We need more sanitation training. We need to always stay regulated for the optimal physical wellness of everyone.

My Comment Will Be Made Public: I agree
