Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

Deregulating the cosmetology program would be the biggest mistake possible.

Lawsuits, poor hygiene, transmitting of bugs like lice, or other skin transmitted fungus, and bacteria.

A cosmetologist is highly trained in sanitary work practices, as they should be.

Have anyone on the committee ever had lice transmitted to them from dirty trimmers at a hair salon? Does anybody on the committee want that to become a regular thing? How about shingles, contagious rashes, and cross contamination of hair tools that were used on that guy that has not showered in months just before your turn to get a hair cut.

Please think this over. Ask Greg Abbott if he would hire some random person on the street to do his hair from now on...

Any Alternative or New Recommendations on This Agency:

Training and course hours are as they need to be, exit testing should increase and sanitation should never be put on the back burner.

Texas has more since than this
