Subject: Public Input Form for Agencies Under Review (Public/After Publication)

Agency: TEXAS STATE BOARD EXAMINERS PROFESSIONAL COUNSELORS

First Name: Brian

Last Name: Brinkmann

Title: Licensed Professional Counselor-Intern

Organization you are affiliated with: The Parenting Center

Email: bbrinkmann@theparentingcenter.org

City: Fort Worth

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

I am a Licensed Professional Counselor-Intern and a member of the Texas Counseling Associations, the American Counseling Association (ACA), and the American Association of Christian Counselors.

I support the Texas Sunset Commission findings that “the boards are acting in good faith and have made notable strides in addressing the previously identified problems...However, significant problems and challenges remain that cannot be resolved within the current structure” and “the continued administrative attachment of the marriage and family therapy, professional counseling and social work boards to a large agency...is still not working...The dysfunction created by such a model places the livelihoods of licensees in jeopardy and puts the public at risk.”

I also support the following Sunset Commission staff recommendations:

- “The consolidated agency [TSBEMFT, TSBEP, TSBSWE and TSBEP] structure of the Behavioral Health Executive Council presents the best approach to align the regulation of these behavioral health professions and elevate the attention and oversight of these programs.”
- “More efficient and effective regulation of these professions will not only provide improved services and increased responsiveness to licensees but also will better protect behavioral health care consumers.”

However, I disagree with the following Sunset Commission staff recommendation:

- “The executive council would be composed of one public member appointed by each of the four boards and an independent presiding officer appointed by the governor.”

Any Alternative or New Recommendations on This Agency:

I recommend that the structure of the Behavioral Health Executive Council, as proposed during the last Sunset Review, include one professional and one public member appointed by each board, with the presiding officer appointed by the Governor. This would be consistent with other regulatory boards in Texas. Currently, no board that regulates health professionals in Texas is composed exclusively of public members. In fact, the Sunset Commission staff recommendations for the Board of Medical Examiners do not propose to restructure that Board to create an all or majority public member structure.

By including professional members, the BHEC is much more likely to enhance consistency in standards of practice, licensing and enforcement decisions as no single mental health profession (or the public) would hold a majority on the BHEC.

Thank you,

Brian Brinkmann, LPC-Intern
