Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

I oppose the dissolution of the DLCC. The DLCC is the only entity that provides the critical knowledge of the laboratory industry in Texas. The DLCC consists of Texas Lab owners who are Certified Dental Technicians. They can provide direct knowledge in the rapidly changing trends in Laboratory Technology. Dental Laboratories have a direct impact on the dental care that Texas dental patients are receiving. Eliminating the DLCC would have a negative impact on Texas laboratories and the standards that are critical to maintaining proper licensure.

Thank you,
Jennifer Brown, technician

Any Alternative or New Recommendations on This Agency: I would like to see the DLCC retained and used to uphold the licensure and standards of Texas laboratories.

My Comment Will Be Made Public: I agree
