Subject: Public Input Form for Agencies Under Review (Public/After Publication)

Agency: RAILROAD COMMISSION TEXAS RRC

First Name: Lela

Last Name: Burnell Korab

Title:

Organization you are affiliated with: Save RGV from LNG

Email:

City: Brownsville

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I found out about this agency from an article I read in the Brownville Herald. I appreciate that this agency honestly reported the truth about the challenges of the Rail Road commission and how they are not a strong enough organization to continue on as they have. Our Port of Brownsville wants to line its borders with LNG plants.

Any Alternative or New Recommendations on This Agency:
Society of International Gas Tanker and Terminal Operators(SIGTTO) has outlined important features for the safe siting of LNG terminals and Tanker routes. Neither the BC government now the Federal government have adopted SIGTTO's recommendations. Many of which are violated in the purposed sitings for the LNG terminals on the Brownsville Ship Channel.

Please watch this video for more information.

There needs to be at least one agency that will have a backbone to defend the public from the dangers of the Oil and Gas Industry. From what I read in the Brownsville Herald today I am hoping this is the Agency to do that.

Thank you
Lela Burnell Korab

My Comment Will Be Made Public: I agree
