State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

I feel it is big mistake to abolish cosmetology instructors license especially right now going through covid-19 pandemic I believe that our industry was well-prepared due to well qualified instructors teaching cosmetologist how to protect ourselves and the community to take that away is an outrage who's going to do the same for those aspiring hairdressers that are still in Middle School junior high or high school who is going to teach them who's going to do right by them by teaching them the correct ways to do things who's going to teach them the importance of knowing what chemicals they're working with and the effects and the reactions to another human being that they're applying the chemical to the hairdresser Behind the Chair it's not going to teach them everything that they should know because in essence they are teaching their competition and if those big chain salons think that they can do that what's going to happen to all the other young individuals that want to be hairdressers that won't be able to get that education Texas is a great state with great hairdressers that were taught by a great instructors There's no good reason for a change

Any Alternative or New Recommendations on This Agency: Let Texas have good hairdressers not Just a super cutter

My Comment Will Be Made Public: I agree
