Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I'm concerned about the possible lack of on-job apprenticeship if there is no longer a state board of plumbing examiners. I firmly believe that book knowledge is more supplemental to most careers and that the majority of knowledge is gained through the actual hand's on experience. Without the learned experience mistakes can be made and the public can be put into a harmful, possibly deadly, situation.

Any Alternative or New Recommendations on This Agency: Considering plumbing is vital to the public's health and lives I would suggest making it safer... not more harmful by having "licensed" yet inexperienced plumbers.

My Comment Will Be Made Public: I agree
