Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

I believe the State Board of Plumbing is needed because I most certainly want whoever is working on the water in my house to be properly trained and vetted. If just anybody can be a plumber by buying a license, then they are more likely to get things mixed up as they are inexperienced. Clean water in and sewage water out is extremely important for our health to not get mixed up or together. Without the board in place, how can anyone be sure that they know what they are doing or held accountable?

Knowing how to do their job properly is extremely important. If the board of plumbing examiners is removed more unlicensed people will be able to operate without proper credentials and insurance.

Any Alternative or New Recommendations on This Agency: Keep the State Board of Plumbing in place.
