Your Comments About the Staff Report, Including Recommendations Supported or Opposed: It is unconscionable that the destruction of one of Texas and the worlds remaining pristine environments with it's unique plant and animal life and rapidly disappearing clean water and air should be plundered so cavalierly with the stroke of a pen by those who appear to sympathize with a few selfish profit hungry individuals. This action is not for the good of the majority of Texas and citizens who do not want to give up there land should not have to without knowing that it will benefit all.

Any Alternative or New Recommendations on This Agency:

The agency needs participants who are more concerned with the health, wellbeing and rights protection of Texas citizens and less of those who cower to those in the oil and gas industry.

Also; Drop the word "Railroad" from the Title since you have nothing to do with railroad s except that it appears that the people of Texas get "Railroaded"

My Comment Will Be Made Public: I agree
