Your Comments About the Staff Report, Including Recommendations Supported or Opposed: With the increase in APRN it is imperative that all board actions have APRN that are in the speciality of the APRN on the board and familiar with the scope of practice of the position. It is a disservice to the community and to the APRN to hold any kind of action in which the board is not familiar with the scope of practice of an APRN or speciality area.

Any Alternative or New Recommendations on This Agency: APRN of different speciality be assigned as expert members to the nursing board. So they can be available when APRN cases come before the board.
