Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

I am a petroleum geologist and have been a member (#6843) in good standing of the Texas Board of Professional Geoscientist since August 31, 2003. The reason I joined along with all of my geologist friends was simply out of fear that government encroachment would one day in the future control my freedom to practice my occupation. I have received absolutely ZERO benefit for being a "certified geoscientist" All this thing has done is create bureaucratic jobs that drain the revenue that is received, all in the name of "protecting the public". Kill it, and may it never rise again.

Any Alternative or New Recommendations on This Agency: NONE, Please let it die quickly

My Comment Will Be Made Public: I agree
