Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

I am strongly opposed to combining the land surveying and engineering boards.

These are separate professions that are best regulated by individuals very knowledgeable in the respective profession.

Given the complicated nature of land title in our state, it is imperative that the profession be regulated by those knowledgeable of the laws that affect it. The current setup of a separate Texas Board of Professional Land Surveying board meets these requirements and is the best way to protect the public.

Any Alternative or New Recommendations on This Agency: I recommend that the Texas Board of Professional Land Surveying be given the opportunity to address the concerns listed in the Sunset Staff Report and remain an independent licensing agency.
