State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or
Opposed: I am a hairstylist that been in business for over 26 years. I went to school to get educated on becoming a stylist and now working on my second degree, also attending UHD for the fall for my bachelor's degree. So, I will have two associates and a bachelor's degree with my instructor license and also working towards my certification. And the reason why I am telling you all this is because hard work and working together make the dream work. You have individuals that are misrepresenting our hustle to because of better individuals. I am here to become a teacher that will take the time to teach student who is willing to learn the correct way. It more to doing hair in the kitchen or making sure that your client is in a safe environment. Customer service comes a long way and learning different techniques (styles), products, sanitation, cuts, and etc. You have to continue education for all that. Some people are born with talent but others are not playing house I should say.

Any Alternative or New Recommendations on This Agency: I did 1500 at a beauty school and 865 for the instructor program, it took time to learn what I was taught to me and other individuals who sat in that classroom with me. And if I did it then the next person who is trying to get in the same profession should go through the same process.

My Comment Will Be Made Public: I agree
