City: SPRING CITY

State: Pennsylvania

Your Comments About the Staff Report, Including Recommendations Supported or Opposed: Breeders over breed. The mamas are bred and bred until they can't anymore and then killed or abandoned. I know because I rescued one. The mills are not particularly interested in the characters of the dogs they sell or the long term health! OR who they sell to. They just want to make money and so Millions, yes, millions of dogs are killed each year or abandoned on the side of the road until they die. Please do not advocate or allow puppy mills! They call them MILLS for a reason.

Any Alternative or New Recommendations on This Agency: Any breeding facility must be inspected. and reviewed. If it doesn't meet GOOD standards, not just some water and some dirty food. and dirty cages. There must be runs for dogs and they must be adequate. The breeders should have a reviewing program that people can see and if they dont meet that standard they need to be shut down.

There can not be unlimited breeder either. they must be shut down PERIOD, and not be allowed to open up under a new name. Females can not be breed and breed and then killed or sent to a shelter to be killed. Encourage people NOT to breed just because their daughter wants to see what it is like. Texas has dogs roaming the streets like a 3rd world country because of over breeding and lack of responsibility.

My Comment Will Be Made Public: I agree
