Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

The Texas Department of Licensing and Regulation took over the Texas Cosmetology Commission with the duty of keeping the community safe. How did they do this, by cutting down on inspections, not caring if people are working with licenses, hiring people who know nothing about the programs.

I do not expect any one who reads this to pay one bit of attention. I know this because I was there when they dismantled the TCC which paid attention to public safety. I oppose TDLR as being the regulator over Cosmetology.

Any Alternative or New Recommendations on This Agency:

How can this agency care about public safety when they only inspect the salons twice a year. Who is going to care if they use sanitation procedures after a visit, they have two years to do what ever they please. Many won't even be in operation by the time they inspect again. When TCC was in force we knew, we better be on our toes. They were there every month. I would say there are more people working out of their homes or with out licenses than ever before.

Please if you care about public safety take this commission away from TDLR.

They do a great job at many things but Cosmetology is not one of those things. Safety is of utmost importance. I think the public would agree.

My Comment Will Be Made Public: I agree
