State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or
Opposed:
Why would you want to do away with the Instructors licensing? The instructors are the teachers of the safety and
well being of the public. It is the instructors that teach the important of these laws that TDLR has put into place and
enforced. If you didn't have instructors that went up and beyond in education so as to make sure that the well being
of the public is protected.
With out the licensing of instructors, I feel that this industry would be come a chaos of an unprotected public. If any
one can be hired to be an instructor how would it be regulated on how well they are teaching up coming
cosmetologist and Barbers on sanitation and safety. I believe that licensed individual in this field work hard on the
enforcing the protection of the public with sanitization because that extra education they learned that isn't by just
having any one teach.

Now lets talk about combining the two license . How would that work? How would this be regulated? I hold a duel
Instructors licenses and pay for all fees and continuing education that is required for both licenses to keep both
active . I'm ok with that. I know the differences in the two even is similar.

Any Alternative or New Recommendations on This Agency: I would need to hear more on what is being considered
before I could have recommendation.

My Comment Will Be Made Public: I agree
