Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

We are in support of recommendation 3.1 which requires TWC to include more in-depth data on the effectiveness and outcomes of child care subsidies in its statutorily required report on the program. Additionally, TWC should incorporate child level outcomes including length of time child in care uninterrupted.

We are in support of recommendation 3.2 which requires TWC to establish a process in rule providing for regular review of the Texas Rising Star child care quality standards as well as recommendation 3.3 to require TWC to develop a policy on gathering and using stakeholder input regarding child care and 3.4 to evaluate measures of the child care program's effectiveness in its internal monthly performance analysis. We would like to further direct TWC to include performance measures focused on child level outcomes.

We are also in support of recommendation 3.5 and 3.6 to direct TWC to establish baseline board-level data on TRS and evaluate impacts and trends as program changes progress and to direct TWC to regularly gather feedback from boards on the quality of TWC's assistance in managing the child care program.
