Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I support the continuation of the Texas Board of Professional Geoscientists (TBPG). The oil and gas industry does a dismal job in portraying the benefits of the oil and gas industry. Some of the misunderstood sectors of the oil and gas industry include the protection and management of groundwater, the safety of our infrastructure including the health and safety of our environment and its people, and the technical advances of the geoscience profession. The TBGP supports this initiative and I support the TBGP.

Any Alternative or New Recommendations on This Agency: None. Keep TBGP.

My Comment Will Be Made Public: I agree
