I am Linda Gonino of Heath , Texas and I oppose the continuation of he Texas Medical Board in its current form.

I also oppose Texas joining the licensing interstate compact.

I wish to speak to the heavy costs personally and professionally by the malicious and fallacious charges by the Texas Medical Board to my husband .

We incurred legal fees of over \$270 K on one case alone.

We had to refinance our home losing a huge chunk of our equity.

We also had to rob our retirement plan.

These financial losses prevented us from doing business optimally and prevented any kind of business growth.

Many times during the two years and two months of the false case, we were forced to personally loan our business money to cover salaries , as well.

The unrelenting stress took its toll on all our family , especially myself, a 34 year cancer survivor .

If I had not had access to alternative and complementary therapies I can honestly say that I don't think I would be here today to spend time with our four children and seven grandchildren.

The TMB is an unjust and corrupt agency that has caused untold hardship and disasters for many good doctors.

I believe the board should be abolished and be re established with the proper board members and rules as described in their own rules .

Thank you .
