State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

It is essential we do all we can to protect our young athletes. As the Director of Operations for the 911 ambulance in Crosby, Texas I can attest to the loss of an athlete after football practice from a hidden heart condition. This loss was both tragic and avoidable from one simple, painless ECG. I never want to have to tell another family the bad news of their child's death from something so senseless. You can make a difference in a young Texan's life by simply supporting us in our quest in having ECG cardiac pre-screening required for all youth athletics in Texas schools. Please support the "Go big or go home.com" mission of saving young lives.

I support ECG screening in our schools!

Christy Graves

Any Alternative or New Recommendations on This Agency:

As a 22 year paramedic and an elected Harris County Commissioner for HCESD4 I urge the State of Texas to take a hard look at athletic requirements for all Texas School's. Prevent tragic loss of lives and implement cardiovascular pre-screen and intermittent screening by ECG.
