Your Comments About the Staff Report, Including Recommendations Supported or Opposed: The Polygraph Industry does not need to be deregulated. As a law enforcement polygraph examiner it is critical that the Industry continue to have high ethical standards as well as educated examiners. If the polygraph law is "Sun Setted" it will open the door to any fly by night person with a polygraph instrument to purport he/she is able to differentiate the difference between the truth or a lie and that would be devastating to the people of this Great STATE. Polygraph is essential in the Probation & Parole setting as it relates to the Treatment of Sex Offenders and pedophiles. Doing away with regulations would definitely make the citizens of Texas unsafe. Therefor I oppose any changes in the State of Texas Polygraph Laws. Thank you for your consideration

Any Alternative or New Recommendations on This Agency: Leave things as they are. As my Boss says "If in ain't broke don't Fix it !
