Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I oppose the loss of instructors license. There is a huge difference working in a salon and running a school. I believe the 300 hour training already required is a great thing! It gives cosmetologist/barbers teaching experience with a supervised instructor. In school for instructors license you learn how to make lesson plans, keep student records, complying with TDLR, and educate on hair, skin, and nails. The license needs to remain in order for schools hiring to know their school can be ran according to TDLR. Being a cosmetology instructor has been a totally different career compared to a hairstylist. 300 hours does not take up that much time, and the education is valuable.

Any Alternative or New Recommendations on This Agency:

I would be okay with combining barber/cosmetology. I think so many negative things would happen if instructors license were taken away. Schools would not be ran accordingly and it could effect the health and safety of the public.

Keep instructors license.

I would also like to see cosmetologist be able to micro blade and dermaplane.

Instead of decreasing education, increase the services we can perform.
