Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I am opposing Rule 217.3 banning Dune Buggies. The rule does not define "Dune Buggy" nor "Safe". Also, for some reason it singles out dune buggies as "unsafe" but totally ignores other types of Assembled Vehicles, which in my opinion, are less safe than fiberglass bodied cars. Also the "Assembled and Rebuilt Vehicle Manual" is very confusing, arbitrary and poorly written.

Any Alternative or New Recommendations on This Agency:

All Assembled Vehicles should be considered equally, and as long as they meet the requirements of an ASE Inspection should be legal and eligible for registration and licensing. The Manual needs to be scrapped and totally rewritten.

Thank You for Your Consideration.
