Agency: DEPARTMENT FAMILY AND PROTECTIVE SERVICES DFPS

First Name: Anne

Last Name: House

Title:

Organization you are affiliated with: [parentalrights.org](#); We the People Family Preservation

City: Plano

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

During the months that we had to deal with Child Protective Services, my son ran away from his placement twice; the agency fraudulently obtained funds from Social Security from my sons account; my daughter felt she was being pressured to tell the GAL "what she wanted to hear", essentially lying; neither of my children were allowed to speak with the judge in our case despite repeated requests; my niece and nephew were given drugs not rated for children their age; and my husband and I were considered "guilty" despite having the department non-suit our case and return my children, despite having no charges filed; my son's social worker actually told authorities at the juvenile facility she wanted him kept longer, rather than actively working to get him released.

In no way do I support the Department of child and Family Services. Their practices are inefficient and wasteful - No criminal charges could be filed.

If they spent as much as I did fighting the accusations, then it was about \$12,000 down the drain, plus the cost of services required by both myself and my children, and the cost of their housing during that time. We complained but were directed to a department of the agency them selves, who of course upheld their own finding.

To this day, my children (now 19 and 21) display symptoms of PTSD from the time spent in the states care (and in my son's case, on the street and in a juvenile facility).

children are up to 11 times more likely to be abused and/or molested while in foster care than with their own families. And the agency put my children in that environment. My niece and nephew went to a woman who put them back in the hands of their biological mother who lost them to the state in the first place.

Any Alternative or New Recommendations on This Agency: Abolish the agency in it's current incarnation. If the charge cannot be substantiated in a criminal court, DCF has no place in the families life without their request. The only thing that should be presented are voluntary services for making life easier for the family - yes counseling, but also parenting classes and so forth. The theme song should be "in the best interest of the family" as children will always do better when at home with their family

My Comment Will Be Made Public: I agree

Your Comments About the Staff Report, Including Recommendations Supported or Opposed: The case workers I have meet, Lie in court, and when placed on tape consumer reports did nothing against the case work, even in court she was caught in a lie in falsifying her report, but it was just a little Perjury. she was reported to the Inspection generals office and nothing was done. Her whole testimony was based on lies. Mt son was abused in care, and his sisters and brother too, while in care CASA reported my youngest child was sexual abused and yet they did nothing, then they had the twins over to a child abuser who abandoned them four years earlier. she went to Oklahoma and send the twins to other members of her family to abuse, Mary sloan peddles the children out to know know child abusers and still get support from the state of Texas. we recorded conversations with case worker catching them in lies and they told us in a appeal that there intentions from the start was to remove our children. we caught CPS filing false report and receiving money for children not even in there care. to make matter worse the case was handle by colin County who ex brother in law who was formally married to Mary sloan, he was buying drugs from Mary SLoan and knew the teachers whom the children had worked with in school. his connection to the case would mean mving it to another county, all they did was relocate the children, but not the case. they illgally bifurcated the case. so we could not even get a chance to get the twins back. even though they had been in our care for four and half years, and we had power of attorney, for there care.

Any Alternative or New Recommendations on This Agency: out side agency to act as watch dog group made up of citizens who are not dependent on the income of the foster care system or child removal. place insensitive to compensate families for the legal fees once there children are returned. to hold cps and care givers to the same standards as families. to punish CPS agents for false reports they make and to prosecute sexual offenders with in the system. to let police investigate the case, if no evidence is found , allow family court to then attack a family on gut feelings and none provable accusations in civil court is un-constitutional, where they do not even fallow due process.

to remove the incentives to remove children.
