Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

My name is Darren Huff. I am a resident of Round Rock, TX. I am a member of 350 Austin, a nonprofit organization that is acting locally in the global climate movement. We are the Central Texas affiliate of 350.org, an international network working towards a safe climate and a just, sustainable future.

As you proceed through the LCRA Sunset Review process, I request that you consider the following to help move LCRA forward as a state agency: Through ownership and operation of Fayette Coal Plant, LCRA is directly responsible for a major source of deadly carbon emissions in the Central Texas region. I request that LCRA develop a plan to sunset Fayette, and stop poisoning our air and water. The health of our community depends on it.

I am eager to hear you address the above during the Sunset Review process. As a constituent, I will continue to follow LCRA's progress in the coming months. I look forward to future opportunities to help LCRA improve as a community steward for Central Texas.
