Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

I support the TMB Staff recommendation found on Page 5, to create a Medical Radiologic Technologist Assistant [RA] certificate.

Any Alternative or New Recommendations on This Agency: I support certification/licensure of all who image my fellow Texans for medical purposes - including sonography and Magnetic Resonance individuals. The public should be aware they have the right to request information about any medical imager's education and training. Dangerous and Hazardous clause as well as the hardship clause should not be used to allow someone to avoid hiring a fully educated individual in an effort to save money when human lives and health are the primary consideration.

My Comment Will Be Made Public: I agree
