Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I am 38 years old and recently had an ECG done because I have never had one. I had NO symptoms or signs of any problems and found out I have Right Bundle Branch Blockage. My children and husband are also getting ECGs done because this simple test gives SO much power in knowing.

Any Alternative or New Recommendations on This Agency: All student athletes MUST be tested and everyone really.

My Comment Will Be Made Public: I agree
