Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I am completely confused why you would get rid of the Instructor License . Who will teach the students? I hope you don't think someone in a shop will train someone properly about disinfection and how to do chemicals without cutting corners and give the new person all of the information they will need to understand the reason why you are to do all of the education behind the actual service you are performing .

Any Alternative or New Recommendations on This Agency: I'm not sure why you would ask someone outside of the professions that you regulate to give advice on any professional profession .

My Comment Will Be Made Public: I agree
